EDUCATION

STI College – General Santos City

BS in Information Technology

General Santos City, PH

Sept. 2022 – Jun. 2026

EXPERIENCE

Hall of Justice

IT Intern

General Santos City, PH

Jan. 2026 – May 2026

- Organized and maintained office documents for accuracy and staff accessibility
- Built and updated Excel spreadsheets to track billing records
- Cross-checked data sets to identify discrepancies and ensure accuracy
- Performed data entry with strong attention to detail
- Provided technical support, resolving common issues for staff
- Managed multiple tasks and deadlines effectively

Holy Trinity College

Work Immersion – Computer Systems Servicing (NC II)

General Santos City, PH

Mar. 2022 – Apr. 2022

- Installed and configured computer hardware and software systems
- Set up computer networks, including cabling and network devices
- Configured servers for shared access and basic operations
- Diagnosed and repaired hardware and software issues

PROJECTS

Tower of Knowledge — Capstone Project

2D Educational Game (Godot Engine)

General Santos City, PH

2025 – 2026

- Top 5 Capstone Project; built a 2D educational game teaching ICT fundamentals through gameplay
- Sole developer: game mechanics, level design, UI, and content
- Used Godot Engine to reinforce ICT concepts for student learners

Notely — AI-Powered Notes App

Full-Stack Web App (React, Node.js, Google Gemini API)

Personal Project

2026

- Built and deployed a full-stack app that turns uploaded videos and PDFs into structured notes using Google Gemini's multimodal AI
- Developed the frontend in React + Vite and the backend in Node.js/Express, containerized with Docker and deployed on Vercel and Render
- Handled UI/UX design, file upload, API integration, and error handling for a smooth end-to-end experience

AI Automation Systems — n8n & OpenAI Integration

AI-Powered Workflow Automation

Freelance

2026

- Built an AI customer support automation (n8n) that monitors Gmail and web forms, classifies inquiries via the OpenAI API, autore solves routine questions, and escalates complex cases
- Built an AI lead-qualification system that scores leads, sends Cal.com booking links, and logs leads in a Google Sheets CRM
- Integrated Gmail, Google Sheets, Cal.com, and OpenAI APIs; resolved data-mapping and workflow bugs
